

Get So High

Younger, Olivares, Remington

Verse 1

Steeple, feed mills, and football lights
Tower over everything in sight
From a far off, flat little heartland town
You can only get so high

High school sweethearts and dead end jobs
Drivin' lifetime, chevys, til the wheels fall off
Hand me down ground you'll never sell
You can only get so high

Chorus

Walls get built and roots grow deep
You fall in love with simple but you can't help but think
Who have I become, who could I have been,
And am I all I'm ever gonna be

Verse 2

Don't need no beer joint bar stool buzz
I need more than just enough
'Cuz round here you can try to reach the stars
You can only get so high

SOLO

CHORUS

Outro Verse

Is there really a right or wrong
If I cut ties, would my life, even change at all
Or Is the whole world a flat little heartland town
Where You can only get so high
